**Security:** You acknowledge that (I) the network service provides unencrypted access to the internet and agree you are responsible for the security of your system and any transmissions you make or receive; and (II) you understand the risks of unencrypted access to the internet, and will take any necessary security precautions, including encrypting confidential transmissions, backing up any data and protecting your system with a firewall and robust user authentication.

**Prohibitions:** You agree that your activities on the network shall not:

- Introduce any computer programming routines that may damage, detrimentally interfere with, surreptitiously intercept or expropriate any system, data or personal information;
- Knowingly or negligently create any liability for Adobe;
- Violate any law, statute, ordinance or regulation (including, but not limited to, those governing export control, consumer protection, unfair competition, antidiscrimination or false advertising);
- Be defamatory, trade libelous, unlawfully threatening or harassing;
- Be obscene or contain pornography;
- Infringe any third party's copyright, patent, trademark, trade secret or other proprietary rights;
- Involve any attempt to access any data or system which you are not authorized to access;
- Redistribute, retransmit, resell or otherwise make available to any third party Adobe's BYOD Network or your access to the network, whether for commercial purposes or otherwise, without our express prior written consent. Without limiting the foregoing, you may not share your network connection (including any IP address or password assigned to you through the network) with anyone, or otherwise authorize any third party to use the network; and
- Violate any applicable Adobe Policy or Standard.

**Monitoring:** Adobe routinely monitors and logs activity and communications over its networks for security, performance, and other purposes. Thus, you acknowledge and agree that Adobe may access, monitor, collect, audit, intercept and disclose any such activity upon and communications, data or information transmitted through your use of Adobe's BYOD Network.

**Availability:** You agree that Adobe may, in its sole discretion, not make certain internet services available, and may revoke your access to this network at any time for any reason with or without notice.

**Warranties:** AS A COMPLIMENTARY SERVICE, THIS NETWORK IS PROVIDED "AS-IS" AND "WHERE-IS," WITHOUT ANY WARRANTIES, EXPRESS OR IMPLIED.
